1 PART I GENERAL CONSIDERATIONS

1.1 General aims

- 1.1.1 This Decision applies to the authorities of the Member States of the European Economic Area (EEA) competent for the supervision of insurance and reinsurance undertakings (“Supervisory Authorities”) on the basis of Directive 2009/138/EC¹ (“Solvency II Directive”).
- 1.1.2 This Decision should be read together with the relevant provisions of the Solvency II Directive.
- 1.1.3 The Members of the European Insurance and Occupational Pensions Authority (“EIOPA”) have a long tradition of cooperation and exchange of information. It is recognized that the on-going development of the internal market and the growing internationalisation of business activities require increased collaboration between supervisors.
- 1.1.4 The Supervisory Authorities will endeavour to cooperate and use, as effectively as possible, all information available for supervisory purposes in order to achieve the objectives of insurance supervision and, in particular, adequate protection of policyholders and other stakeholders and financial stability.
- 1.1.5 Nothing in this Decision should affect internal communication arrangements within a Member State. However, such arrangements should not hinder effective cross-border cooperation between the Supervisory Authorities.
- 1.1.6 Nothing in this Decision should diminish the responsibilities of Supervisory Authorities under the Solvency II Directive and in particular the duty vested in the Supervisory Authority(ies) of the Home Member State to authorise and to exercise prudential supervision over the undertaking for which it has sole responsibility.

¹ Directive 2009/138/EC of the European Parliament and of the Council of 25 November 2009 on the pursuit of the business of insurance and reinsurance (Solvency II) (OJ L 335, 17.12.2009, p.1)

PART I GENERAL CONSIDERATIONS

1.2 Principles of cooperation

- 1.2.1 The Supervisory Authorities, whilst recognising the principles in the Solvency II Directive regarding the distribution of responsibilities between Home and Host Member State Supervisory Authorities (“Home NSA” and “Host NSA” respectively) acknowledge the importance of effective cooperation to facilitate the carrying out of their respective duties.
- 1.2.2 The procedures and information described in the Decision constitute minimum requirements and provide considerations on the communication of additional information. Nothing in the Decision should be interpreted in such a way as to hinder the exchange of further information and the extended collaboration between the Supervisory Authorities, as concerns the supervision of undertakings.
- 1.2.3 The information exchange requirements described in the Decision should be proportionate to the nature, scale and complexity of the risks inherent in the business of the insurance or reinsurance undertaking. The Supervisory Authorities should give adequate consideration to the specific nature of captive insurance and captive reinsurance undertakings.
- 1.2.4 The information exchange requirements described in the Decision should take into account prospective and risk-based supervision which includes the verification on a continuous basis of the proper operation of the insurance or reinsurance business and of the compliance with supervisory provisions by insurance and reinsurance undertakings.
- 1.2.5 In the case of undertakings in difficulty and other emergency situations, the Supervisory Authorities endeavour to make every effort to remedy the problems and minimise the negative impact on policyholders and financial stability.
- 1.2.6 In the case of divergent views in terms of application of this Decision, the relevant Supervisory Authorities should strive to a mutually agreed solution; in cases where no such solution can be reached, recourse should be made to EIOPA for mediation.

1.3 Rules on professional secrecy

The Supervisory Authorities agree to exchange confidential information whenever possible, within the limits of the rules laid down in Articles 64 to 71 of the Solvency II Directive in order to improve the effectiveness of insurance and reinsurance supervision in the EEA.

PART I GENERAL CONSIDERATIONS

1.4 IT tool supporting the exchange of information and notifications

1.4.1 To allow the identification of potential risks as soon as possible, the exchange of information and notifications prescribed in this Decision in relation to undertakings pursuing cross-border activity under the freedom to provide services (FoS) and freedom of establishment (FoE) will be supported by a dedicated IT tool.

1.4.2 The IT tool is provided and hosted by EIOPA and it is made available to each Supervisory Authority. The IT tool is used:

- as platform to share information between the Home and the Host NSAs and EIOPA;
- as data storage system to enable structured storage and extraction of the information shared on an individual and aggregated basis (database).

EIOPA operates the IT tool in accordance with applicable data transmission and data protection rules.

1.4.3 For each information exchange and notification in relation to undertakings pursuing cross-border business specific templates will be designed. Each template contains the minimum set of information to be exchanged by the Supervisory Authorities. Annex 2 to this Decision describes the information flows between the Supervisory Authorities foreseen by this Decision with the names of the related template. Annex 3 to this Decision contains the information included in the templates.

1.4.4 With the aim to continuously improve the processes of information and notification exchange between Supervisory Authorities including the time and the quality of information exchanged, EIOPA may conduct reviews of the process and of the information exchanged through the IT tool. The Supervisory Authorities should report to EIOPA any improvement opportunities they detect to improve both the process and the information exchanged.

3 PART III CROSS-BORDER ACTIVITIES

3. Framework for the collaboration of Supervisory Authorities

The provisions for collaboration between Home and Host NSAs are established on the following bases:

a) Single market

The authorisation to take-up and pursue the business of insurance or reinsurance is valid for the EEA and covers the right of establishment and the freedom to provide services⁹. Once authorised by the Home NSA, insurance and reinsurance undertakings have the right to establish a branch within the territory of another Member State or may pursue their business in another Member State under the freedom to provide services. For such activities no further authorisation is needed, neither by the Home NSA nor the Host NSA. The intention to pursue insurance business in another Member State (branch operation or provision of services) has to be notified to the Home NSA. The latter communicates this to the Host NSA.

The single market approach requires that the same rules apply to all market participants and that proper consideration is given to the specificities of each insurance/reinsurance market.

b) Policyholder protection

A similar level of protection should be assured to policyholders across the EEA regardless of the location of the insurance or reinsurance undertakings' head office.

c) Supervisory cooperation and exchange of information

Information exchange and ongoing cooperation is essential for Home NSAs to perform effective supervision and for Host NSAs to address the fair treatment of policyholders. Home NSAs should make use of the knowledge of the Host NSAs about the conduct of undertakings in their territory and Host NSAs should be able to utilise the knowledge of the Home NSAs about the prudential status of the undertakings under the home country control. To this end, a set of notifications between the Home and Host NSA is put in place. - a) premiums written by line of business ("LoB"), split by:
 - a. business underwritten in the Host country through a branch established in the Host country;

In addition to the above, to keep Host NSAs informed of which notifications are active and which are inactive, EIOPA shall include in the report developed in accordance with the first sub-paragraph, a table for each individual country all entries from the register on "FoS", "Branch" and "FoS by Branches", where the country is the host country. 6 PART VI HANDLING OF POLICYHOLDER COMPLAINTS

6.1 Complaints handling systems in Member States

Articles 183 and 185 (3) (l) of the Solvency II Directive

- 6.1.1 In the context of the development of the single market in insurance, it is important that all complaints received by Supervisory Authorities from policyholders²⁸ are dealt with by the relevant complaints handling body, irrespective of whether the complaint involves policyholders and insurers in different Member States.
- 6.1.2 The insurance undertaking shall inform the policy holder of the arrangements for handling complaints of policy holders concerning contracts including, where appropriate, the existence of a complaints body, without prejudice to the right of the policy holder to take legal proceedings.
- 6.1.3 The manner in which complaints handling received by Supervisory Authorities²⁹ is organised within a jurisdiction is a matter for each jurisdiction and therefore not subject to this Decision. There are a wide variety of complaints handling systems in Member States. In some Member States, complaints are dealt with by Supervisory Authorities, whilst others have developed Ombudsman services or other systems, or have a combination of both. The ways in which these systems operate vary considerably across the Member States.
- 6.1.4 Where complaints have a cross-border component, it is important for individual policyholders and for consumer confidence generally, that the differences in complaints handling systems do not prevent or deter complaints from being directed to the relevant bodies and subsequently dealt with.
- 6.1.5 The procedures outlined in this Decision are intended to facilitate the process of identifying the relevant complaints handling body and ensure that complaints filed with a Supervisory Authority are addressed and arrive at the body that is competent to deal with the complaint.

²⁸ The term 'policyholder' shall be understood in a broad sense, including all persons that file an insurance-related complaint.

²⁹ This Decision focuses on complaints received by Supervisory Authorities, and does not concern consumer complaints received by the undertakings or intermediaries, which are covered by the relevant EIOPA guidelines.

PART VI HANDLINGS OF POLICYHOLDER COMPLAINTS

6.1.6 It is recognised that the Commission has set up a network (FIN-NET)³⁰ to facilitate the out-of-court resolution of consumer complaints where the service provider is established in a Member State other than the Member State where the consumer is domiciled. Nothing in this Decision is intended to interfere with this agreement or the process developed under FIN-NET.

6.2 Complaints handling procedures

6.2.1 A complaint shall be assessed by the Supervisory Authority which initially receives it, to establish which body is competent to deal with the complaint. Where possible, the Supervisory Authority shall keep the complainant informed about further handling of the complaint.

6.2.2 In cases where the Supervisory Authority that receives the complaint is competent to deal with the complaint, it shall inform the complainant, as soon as possible, of applicable national procedures.

6.2.3 In cases where the Supervisory Authority that receives the complaint is not competent to deal with the complaint, but another body in the same jurisdiction is, the Supervisory Authority shall, as soon as possible:

- if legally possible, pass the complaint directly to the body competent to deal with the complaint and inform the complainant of the referral;
- if legally not possible, provide the complainant with any relevant information about the body competent to deal with the complaint, to facilitate the referral of the complaint by the complainant.

6.2.4 In cases where the Supervisory Authority that receives the complaint is not competent to deal with the complaint, but a Supervisory Authority or a competent body in another jurisdiction is, the Supervisory Authority that receives the complaint shall, as soon as possible:

- if legally possible, pass the complaint directly to the Supervisory Authority or competent body in the other jurisdiction and inform the complainant of the referral;
- if legally not possible, provide the complainant with any relevant information about the Supervisory Authority or competent body in the other jurisdiction, in order to facilitate the referral of the complaint by the complainant;

³⁰ <http://ec.europa.eu/fin-net>

PART VI HANDLINGS OF POLICYHOLDER COMPLAINTS

- in case that the complaint was passed to a competent body other than the Supervisory Authority, inform, if legally possible, the Supervisory Authority of the other jurisdiction of the complaint.

6.2.5 If a complaint contains issues relevant to the supervision of an undertaking, which operates under the freedom of establishment or FoS, the Supervisory Authority that deals with the complaint shall, as soon as possible, and if legally possible, provide the Supervisory Authority of the Home State with relevant information on the complaint.

6.2.6 In the cases referred to in paragraphs 6.2.3 to 6.2.4, the Supervisory Authority that initially receives the complaint shall explain to the complainant why it considers itself not to be competent to deal with the complaint, and why it considers the other Supervisory Authority or body to be competent.

6.3 Dispute over responsibilities

6.3.1 A complaint shall not be passed to another Supervisory Authority or competent body, if the Supervisory Authority or competent body has already declined responsibility for dealing with the complaint.

6.3.2 Where differences of opinion exist as to who assumes responsibility for the complaint, every best endeavour shall be made to resolve the issue in good faith within four weeks from the date on which the complaint was initially received from the complainant.

6.3.3 If the question of responsibility cannot be settled, the Supervisory Authority which initially received the complaint from the complainant may refer the matter to EIOPA for the purpose of settling the disagreement through non-binding mediation.

6.4 Information to the public

6.4.1 The Supervisory Authorities shall provide the following information³¹ about their national complaints handling system, including updates, as necessary:

- a) Authorities/bodies competent to deal with policyholder complaints (indicating, in particular, whether it is an ombudsman or a supervisory service);

³¹ This paragraph does not impose a requirement on the Supervisory Authority to provide the information in a particular format.

PART VI HANDLINGS OF POLICYHOLDER COMPLAINTS

- b) Contact information for the Supervisory Authority/body competent to deal with policyholder complaints (name, postal address, phone number, fax number, any e-mail address, any website address);
- c) Organisation for the Supervisory Authority/body competent to deal with policyholder complaints (e.g. whether it is a statutory/voluntary system, any charges payable by the complainant);
- d) Coverage for the Supervisory Authority/body competent to deal with policyholder complaints (e.g. insurers/intermediaries covered, insurance products covered);
- e) Competence for the Supervisory Authority/body competent to deal with policyholder complaints (e.g. out of court settlement/system that does not issue decisions; information on whether the decision is binding or not);
- f) Preconditions of the Supervisory Authority/body competent to deal with policyholder complaints (e.g. necessity to address the undertaking in the first place);
- g) Restrictions of the Supervisory Authority/body competent to deal with policyholder complaints (e.g. any limit on the amount awarded, time limits in bringing the complaint to the Supervisory Authority, restrictions on the type of complainant - professional/non-professional, consumer associations/other third parties);

6.4.2 The Supervisory Authorities shall make the aforementioned information available through their public website.³² The Public Area of EIOPA's websites shall provide links to the relevant national websites.

³² A Supervisory Authority may make the information in paragraph 6.4.1 available by way of a link on their website to the relevant information.

7 PART VII OTHER ISSUES

- 7.1.2 In order to carry out this supervision, the Supervisory Authorities of the Home State and the Host State shall exchange, on request, any information relating to assistance resources available to the undertaking, and communicate to each other the necessary documents and information for the exercise of the supervision.
