

COMMISSION IMPLEMENTING REGULATION (EU) 2015/2012**of 11 November 2015****laying down implementing technical standards with regard to the procedures for decisions to set, calculate and remove capital add-ons in accordance with Directive 2009/138/EC of the European Parliament and of the Council****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2009/138/EC of the European Parliament and of the Council of 25 November 2009 on the taking up and pursuit of the business of Insurance and Reinsurance (Solvency II) ⁽¹⁾, and in particular the third subparagraph of Article 37(8) thereof,

Whereas:

- (1) Directive 2009/138/EC provides for a possibility for the supervisory authorities to set a capital add-on for an insurance or reinsurance undertaking. It is necessary to provide for procedures for decisions to set, calculate and remove capital add-ons.
- (2) In order to enable the insurance or reinsurance undertaking to provide information and justifications which may mitigate or challenge the need for a capital add-on before taking a decision on setting the capital add-on, the supervisory authority should give the insurance or reinsurance undertaking the possibility to provide reasons against setting a capital add-on.
- (3) The cooperation of the insurance or reinsurance undertaking with the supervisory authority is essential in view of ensuring the effectiveness of the capital add-on as a supervisory measure. In order to enable the supervisory authority to base the capital add-on on accurate and up to date information, the insurance or reinsurance undertaking should calculate the capital add-on at the request of the supervisory authority.
- (4) In order to enable the insurance or reinsurance undertaking to remedy the deficiencies that led to the imposition of the capital add-on it is necessary to specify the content of the decision to set a capital add-on.
- (5) The supervisory authority and the insurance or reinsurance undertaking should not rely only on the annual review of the capital add-on, but should proactively monitor the circumstances which led to the setting of the capital add-on in order to take appropriate measures. To this end, the insurance or reinsurance undertaking should therefore provide the supervisory authority with progress reports on remedying the deficiencies that led to the imposition of the capital add-on. It is also necessary to provide for a procedure to review decisions on capital add-on if there is a material change in the circumstances that led to the setting of the capital add-on.
- (6) This Regulation is based on the draft implementing technical standards submitted by the European Insurance and Occupational Pensions Authority to the Commission.
- (7) The European Insurance and Occupational Pensions Authority has conducted open public consultations on the draft implementing technical standards on which this Regulation is based, analysed the potential related costs and benefits and requested the opinion of the Insurance and Reinsurance Stakeholder Group established in accordance with Article 37 of Regulation (EU) No 1094/2010 of the European Parliament and of the Council ⁽²⁾,

⁽¹⁾ OJ L 335, 17.12.2009, p. 1.
