

COMMISSION IMPLEMENTING REGULATION (EU) 2023/895**of 4 April 2023****laying down implementing technical standards for the application of Directive 2009/138/EC of the European Parliament and the Council with regard to the procedures, formats and templates for the disclosure by insurance and reinsurance undertakings of their report on their solvency and financial condition and repealing Implementing Regulation (EU) 2015/2452****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2009/138/EC of the European Parliament and of the Council of 25 November 2009 on the taking up and pursuit of the business of Insurance and Reinsurance (Solvency II) ⁽¹⁾, and in particular Article 56, fourth paragraph, and Article 256(5) thereof,

Whereas:

- (1) Commission Implementing Regulation (EU) 2015/2452 ⁽²⁾ specifies the procedures, formats and templates for the public disclosure by insurance and reinsurance undertakings of their report on their solvency and financial condition, as referred to in Article 51 of Directive 2009/138/EC.
- (2) The disclosure of information is an essential prerequisite for policyholder protection. Alignment between reporting and disclosure requirements should foster policyholder protection as well as risk-based supervision. To that end, changes to cross-border information and other areas in the context of updates to the reporting requirements should also be reflected in the disclosure requirements.
- (3) To improve quality, comparability and the readability of the disclosed information, the templates laid down in Implementing Regulation (EU) 2015/2452 concerning the solvency capital requirement should be updated. For undertakings using partial or full internal models to calculate their solvency capital requirements, those updated templates should display the diversification benefits between separate risk modules more comprehensively.
- (4) Disclosure requirements should not be excessively burdensome for undertakings. To that end, it is necessary to specify how disclosure requirements apply in a proportionate way without jeopardizing the quality of data to be provided by the undertaking.
- (5) In order to ensure that the disclosure requirements remain relevant and provide high quality information to policyholders and other stakeholders, it is necessary to substantially revise the disclosure templates laid down in Implementing Regulation (EU) 2015/2452. Given the extent of the changes, it is appropriate to repeal Implementing Regulation (EU) 2015/2452.
- (6) This Regulation is based on the draft implementing technical standards submitted to the Commission by the European Insurance and Occupational Pensions Authority.
- (7) The European Insurance and Occupational Pensions Authority has conducted open public consultations on the draft implementing technical standards on which this Regulation is based, analysed the potential related costs and benefits and requested the advice of the Insurance and Reinsurance Stakeholder Group established by Article 37 of Regulation (EU) No 1094/2010 of the European Parliament and of the Council ⁽³⁾.

⁽¹⁾ OJ L 335, 17.12.2009, p. 1.

⁽²⁾ Commission Implementing Regulation (EU) 2015/2452 of 2 December 2015 laying down implementing technical standards with regard to the procedures, formats and templates of the solvency and financial condition report in accordance with Directive 2009/138/EC of the European Parliament and of the Council (OJ L 347, 31.12.2015, p. 1285).

⁽³⁾ Regulation (EU) No 1094/2010 of the European Parliament and of the Council of 24 November 2010 establishing a European Supervisory Authority (European Insurance and Occupational Pensions Authority), amending Decision No 716/2009/EC and repealing Commission Decision 2009/79/EC (OJ L 331, 15.12.2010, p. 48).

- (8) Undertakings should be given sufficient time to implement the updated disclosure requirements. The date of application of this Regulation should therefore be deferred.

HAS ADOPTED THIS REGULATION:

Article 1

Public disclosure formats

When disclosing the information in accordance with this Regulation insurance and reinsurance undertakings shall express any figures reflecting monetary amounts in thousands of units.

Article 2

Reporting currency

1. Unless otherwise required by the supervisory authority concerned, 'reporting currency', shall, for the purposes of this Regulation, mean any of the following:

- (a) for individual disclosures, the currency used for the preparation of the insurance or reinsurance undertaking's financial statements;
- (b) for group disclosures, the currency used for the preparation of the consolidated financial statements.

2. Insurance or reinsurance undertakings shall disclose figures reflecting monetary amounts in the reporting currency. They shall convert any other currency than the reporting currency into the reporting currency.

3. When insurance or reinsurance undertakings express the value of any asset or liability denominated in a currency other than the reporting currency, they shall convert that value in the reporting currency as if the conversion had taken place at the closing rate on the last day for which the appropriate rate is available in the reporting period to which the asset or liability relates.

4. When insurance or reinsurance undertakings express the value of any income or expense in a currency other than the reporting currency, they shall convert that value in the reporting currency using the same basis of conversion as the one used for accounting purposes.

5. Insurance or reinsurance undertakings shall calculate the conversion into the reporting currency by applying the exchange rate from the same source as the one used:

- (a) for the insurance or reinsurance undertaking's financial statements in case of individual reporting;
- (b) for the consolidated financial statements in case of group reporting, unless otherwise required by the supervisory authority.

Article 3

Templates and instructions for the disclosure of the solvency and financial condition report of individual undertakings

Individual insurance and reinsurance undertakings shall, as part of the disclosure of their solvency and financial condition report, publicly disclose at least the following information by using the following templates and complying with the following instructions:

- (a) template S.02.01.02 of Annex I, specifying balance sheet information using the valuation in accordance with Article 75 of Directive 2009/138/EC, following the instructions set out in section S.02.01 of Annex II to this Regulation;
- (b) template S.04.05.21 of Annex I, specifying information on premiums, claims and expenses by country, following the instructions set out in section S.04.05 of Annex II to this Regulation;
- (c) template S.05.01.02 of Annex I, specifying information on premiums, claims and expenses using the valuation and recognition principles used in the undertaking's financial statements, following the instructions set out in section S.05.01 of Annex II to this Regulation, for each line of business as specified in Annex I to Delegated Regulation (EU) 2015/35;

- (d) template S.12.01.02 of Annex I, specifying information on the technical provisions relating to life insurance and health insurance pursued on a similar technical basis to that of life insurance ("health SLT") for each line of business specified in Annex I to Delegated Regulation (EU) 2015/35, following the instructions set out in section S.12.01 of Annex II to this Regulation;
- (e) template S.17.01.02 of Annex I, specifying information on non-life technical provisions, following the instructions set out in section S.17.01 of Annex II to this Regulation for each line of business as defined in Annex I of Delegated Regulation (EU) 2015/35;
- (f) template S.19.01.21 of Annex I, specifying information on non-life insurance claims in the format of development triangles, following the instructions set out in section S.19.01 of Annex II to this regulation for the total non-life business;
- (g) template S.22.01.21 of Annex I, specifying information on the impact of the long term guarantee and transitional measures, following the instructions set out in section S.22.01 of Annex II to this Regulation;
- (h) template S.23.01.01 of Annex I, specifying information on own funds, including basic own funds and ancillary own funds, following the instructions set out in section S.23.01 of Annex II to this Regulation;
- (i) template S.25.01.21 of Annex I, specifying information on the Solvency Capital Requirement calculated using the standard formula, following the instructions set out in section S.25.01 of Annex II to this Regulation;
- (j) template S.25.05.21 of Annex I, specifying information on the Solvency Capital Requirement calculated using a partial internal model or a full internal model, following the instructions set out in section S.25.05 of Annex II to this Regulation;
- (k) template S.28.01.01 of Annex I, specifying the Minimum Capital Requirement for insurance and reinsurance undertakings engaged in only life or only non-life insurance or reinsurance activity, following the instructions set out in section S.28.01 of Annex II to this Regulation;
- (l) template S.28.02.01 of Annex I, specifying the Minimum Capital Requirement for insurance undertakings engaged in both life and non-life insurance activity, following the instructions set out in section S.28.02 of Annex II to this Regulation.

Article 4

Templates and instructions for the disclosure of the solvency and financial condition report of groups

Participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall, as part of the disclosure of their group solvency and financial condition report, publicly disclose at least the following information by using the following templates and complying with the following instructions:

- (a) where, for the calculation of the group solvency, the group uses method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, template S.02.01.02 of Annex I to this Regulation specifying balance sheet information, using the valuation method referred to in Article 75 of Directive 2009/138/EC, following the instructions set out in section S.02.01 of Annex III to this Regulation;
- (b) template S.05.01.02 of Annex I, specifying information on premiums, claims and expenses, using the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.01 of Annex III to this Regulation, for each line of business as defined in Annex I to Delegated Regulation (EU) 2015/35;
- (c) template S.05.02.04 of Annex I, specifying information on premiums, claims and expenses by country, using the valuation and recognition principles used in the consolidated financial statements, following the instructions set out in section S.05.02 of Annex III to this Regulation;

- (d) template S.22.01.22 of Annex I, specifying information on the impact of the long term guarantee and transitional measures, following the instructions set out in section S.22.01 of Annex III to this Regulation;
- (e) template S.23.01.22 of Annex I, specifying information on own funds, including basic own funds and ancillary own funds, following the instructions set out in section S.23.01 of Annex III to this Regulation;
- (f) where, for the calculation of group solvency, the group uses method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, template S.25.01.22 of Annex I to this Regulation, specifying information on the Solvency Capital Requirement, calculated using the standard formula, following the instructions set out in section S.25.01 of Annex III to this Regulation;
- (g) where, for the calculation of group solvency, the group uses method 1 as defined in Article 230 of Directive 2009/138/EC, either exclusively or in combination with method 2 as defined in Article 233 of that Directive, template S.25.05.22 of Annex I to this Regulation, specifying information on the Solvency Capital Requirement, calculated using a partial internal model or a full internal model, following the instructions set out in section S.25.05 of Annex III to this Regulation;
- (h) template S.32.01.22 of Annex I, specifying information on the undertakings in the scope of the group, following the instructions set out in section S.32.01 of Annex III to this Regulation.

Article 5

References to other documents in the solvency and financial condition report

Where insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies or mixed financial holding companies include in the solvency and financial condition report references to other publicly available documents, these references shall be made through references that lead directly to the information itself and not through references to a general document.

Article 6

Consistency of information

Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall be responsible for the quality of the information disclosed and shall ensure that the information disclosed is fully consistent with the information reported to the supervisory authorities.

Article 7

Means of disclosure of the group and single solvency and financial condition report

1. Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall disclose the group and single solvency financial condition report on the website of the group.
2. When the group or the insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies do not own and maintain a website but are members of a trade association, which does own and maintain a website, the group and single solvency and financial condition report shall, where permitted by that trade association, be disclosed by that association.
3. Where insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies disclose the group and single solvency and financial condition report on a website in accordance with paragraph 1 or 2, that report shall remain available on that website for at least five years after the respective disclosure date.

4. Where insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies undertakings do not disclose the group and single solvency and financial condition report on a website in accordance with paragraphs 1 and 2, they shall send an electronic copy of the report to any person who, within five years of the respective disclosure date requests the report. Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies undertakings shall send the report within 10 working days from that request.

5. Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies undertakings shall, irrespective of whether the group and single solvency and financial condition report has been made available on a website in accordance with paragraph 1 or 2, send, to any person who so requests within two years of the respective disclosure date, a printed copy of the report within 20 working days from that request.

6. Insurance and reinsurance undertakings, participating insurance and reinsurance undertakings, insurance holding companies and mixed financial holding companies shall ensure submission of the group and single solvency and financial condition report, and any updated version of that report thereto, in electronic form to the supervisory authorities.

Article 8

Involvement of the subsidiaries in the single solvency and financial condition report

1. Where a participating insurance or reinsurance undertaking, insurance holding company or mixed financial holding company, requests an agreement from the group supervisor to provide a single solvency and financial condition report, in accordance with Article 256(2) of Directive 2009/138/EC, the group supervisor shall promptly contact all supervisory authorities concerned to discuss in particular the language of the text of the single solvency and financial condition report.

2. The participating insurance and reinsurance undertaking, insurance holding company or mixed financial holding company shall provide an explanation on how their subsidiaries shall be covered and how the subsidiaries' administrative, management or supervisory body shall be involved in the drafting process and in the approval of the single solvency and financial condition report.

Article 9

S.04.05 – Premiums, claims and expenses by country

General comments

This section relates to the annual disclosure of information for individual entities. Insurance and reinsurance undertakings are not required to disclose this information where the home country represents 90 % or more of the total gross written premiums.

The information in these templates shall include:

- all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements; and
- direct business and accepted reinsurance business.

This template shall be disclosed from an accounting perspective (i.e. local GAAP, or IFRS if accepted as local GAAP). It shall however be filled using the lines of business specified in Annex I to Delegated Regulation (EU) 2015/35. Undertakings shall use the recognition and valuation basis as for the published financial statements (i.e. no new recognition or re-valuation is required) except for the classification between investment contracts and insurance contracts where that classification is applicable in the financial statements.

Insurance and reinsurance undertakings shall report written/earned premiums as defined in Article 1(11) and (12) of Delegated Regulation (EU) 2015/35 regardless whether local GAAP or IFRS is used.

For the purposes of this template and in the case of direct insurance, the ‘country in which the risk is situated’ means:

- (a) the country in which the property is situated, where the insurance relates either to buildings or to buildings and their contents, in so far as the contents are covered by the same insurance policy;
- (b) the country of registration, where the insurance relates to vehicles of any type;
- (c) the country where the policy holder took out the policy in the case of policies of a duration of four months or less covering travel or holiday risks, whatever the class concerned;
- (d) the country in which the credit/receivable is situated, where the insurance relates to credit/receivables;
- (e) in all cases not explicitly covered by points (a), (b), (c) or (d), the country in which either of the following is situated:
 - (i) the habitual residence of the policy holder; or
 - (ii) if the policy holder is a legal person, that policy holder’s establishment to which the contract relates.

For the purposes of this template and in the case of proportional or non-proportional reinsurance, the ‘country in which the risk is situated’ means the country of localisation of the ceding undertaking.

When considering non-life obligations:

- (a) information shall be reported for the home country and for the top five non-home countries (by amount of gross written premium), or for sufficient countries (if fewer) to represent 90 % or more of total gross written premium; and
- (b) all of the following lines of business shall be included:
 - (i) Medical expense insurance (direct and proportional reinsurance)
 - (ii) Income protection insurance (direct and proportional reinsurance)

- (iii) Workers' compensation insurance (direct and proportional reinsurance)
- (iv) Motor vehicle liability insurance (direct and proportional reinsurance)
- (v) Other motor insurance (direct and proportional reinsurance)
- (vi) Marine, aviation and transport insurance (direct and proportional reinsurance)
- (vii) Fire and other damage to property insurance (direct and proportional reinsurance)
- (viii) General liability insurance (direct and proportional reinsurance)
- (ix) Credit and suretyship insurance (direct and proportional reinsurance)
- (x) Legal expenses insurance (direct and proportional reinsurance)
- (xi) Assistance (direct and proportional reinsurance)
- (xii) Miscellaneous financial loss (direct and proportional reinsurance)
- (xiii) Non-proportional health reinsurance
- (xiv) Non-proportional casualty reinsurance
- (xv) Non-proportional marine, aviation and transport reinsurance
- (xvi) Non-proportional property reinsurance

When considering life obligations:

- (a) information shall be reported for the home country and for the top five non-home countries (by amount of gross written premium), or for sufficient countries (if fewer) to represent 90 % or more of total gross written premium; and
- (b) all of the following lines of business shall be included:
 - (i) Health insurance
 - (ii) Insurance with profit participation
 - (iii) Index-linked and unit-linked insurance
 - (iv) Other life insurance
 - (v) Annuities stemming from non-life insurance contracts and relating to health insurance obligations
 - (vi) Annuities stemming from non-life insurance contracts and relating to insurance obligations other than health insurance obligations
 - (vii) Health reinsurance
 - (viii) Life reinsurance

S.12.01 – Life and Health SLT Technical Provisions

General comments:

This section relates to the annual disclosure of information for individual entities.

Undertakings may in the calculation of the technical provisions apply appropriate approximations as referred to in Article 21 of Delegated Regulation (EU) 2015/35. In addition, Article 59 of Delegated Regulation (EU) 2015/35 may be applied to calculate the risk margin during the financial year.

Line of Business for life obligations: The lines of business, referred to in Article 80 of Directive 2009/138/EC, as specified in Annex I to Delegated Regulation (EU) 2015/35. The segmentation shall reflect the nature of the risks underlying the contract (substance), rather than the legal form of the contract (form). By default, where an insurance or reinsurance contract covers risks across the lines of business, undertakings shall, where possible, unbundle the obligations into the appropriate lines of business (Article 55 of Delegated Regulation (EU) 2015/35).

Lines of business 'Index-linked and unit-linked insurance', 'Other life insurance' and 'Health insurance' are split between 'Contracts without options and guarantees' and 'Contracts with options or guarantees'. For this split the following shall be considered:

- (a) 'Contracts without options and guarantees' includes the amounts related to contracts without any financial guarantees or contractual options, meaning that the technical provision calculation does not reflect the amount of any financial guarantees or contractual options.

- (b) Contracts with non-material contractual options or financial guarantees that are not reflected in the technical provisions calculation shall also be disclosed in this column;
- (c) 'Contracts with options or guarantees' includes contracts that have either financial guarantees, contractual options, or both as far as the technical provision calculation reflect the existence of those financial guarantees or contractual options.

The information disclosed shall be gross of reinsurance as information on Recoverables from reinsurance/SPV and Finite reinsurance is requested in specific rows.

The information to be disclosed between R0010 and R0100 shall be after the volatility adjustment, the matching adjustment and the transitional adjustment to the relevant risk-free interest rate term structure if applied but shall not include the transitional deduction to technical provisions. The amount of transitional deduction to technical provisions is requested separately between rows R0110 and R0130.

S.19.01 – Non–life insurance claims

This section relates to the annual disclosure of information for individual entities.

Claims development triangles show the insurer's estimate of the cost of claims (claims paid and claims provisions under Solvency II valuation principle) and how this estimate develops over time.

Undertakings are required to disclose data on an accident year or underwriting year basis, in accordance with any requirements of the National Supervisory Authority. If the National Supervisory Authority has not stipulated which to use, then the undertaking may use accident or underwriting year according to how they manage each line of business, provided that they use the same year consistently, year on year.

This template shall be disclosed for the total for non–life business but split by underwriting year and accident year if different bases are used by the undertaking.

The default length of run–off triangle is 10 + 1 years but the disclosure requirement is based on the undertakings' claims development (if length of the claims settlement cycle is shorter than 10 years, undertakings are required to disclose according to the internal shorter development).

Historical data, starting from the first time application of Solvency II, are required for claims paid (i.e. the complete set shall be disclosed,) but not for Best Estimate of Claims Provision. For the compilation of the historical data for claims paid the same approach concerning the length of triangle for the on–going disclosure will be applied (i.e. the shorter between 10 + 1 years and the undertakings' claims settlement cycle).

	ITEM	INSTRUCTIONS
Z0020	Accident year or Underwriting year	Disclose the standard used by the undertakings for disclosing of claims development. One of the options from the following closed list shall be used: 1 – Accident year 2 – Underwriting year

C0170/R0100 to R0260	Gross Claims Paid (non-cumulative) – In current year	<p>Total 'Current year' reflects the last diagonal (all data referred to last reporting year) from R0100 to R0250.</p> <p>R0260 is the total of R0100 to R0250.</p>
C0180/R0100 to R0260	Gross Claims Paid – Sum of years (cumulative)	<p>Total 'Sum of years' contains the sum of all data in rows (sum of all payments referred to the accident/underwriting year), including total.</p>
C0200 to C0300/R0100 to R0250	Gross undiscounted Best Estimate Claims Provisions – Triangle	<p>Triangles of undiscounted best estimate of claims provisions, gross of reinsurance for each of the accident/underwriting years from N-9 (and prior) and all previous reporting periods to – including – N (last reporting year). The best estimate for claims provision relates to claims events occurred before or at the valuation date, whether the claims arising from these events have been reported or not.</p> <p>The data are in absolute amount, non-cumulative and undiscounted, net of salvage and subrogation and excluding any expenses as well as any future premiums.</p>
C0360/R0100 to R0260	Gross Best Estimate Claims Provisions – Year end (discounted data)	<p>Total 'Year end' reflects the last diagonal but on a discounted basis (all data referred to last reporting year) from R0100 to R0250.</p> <p>R0260 is the total of R0100 to R0250.</p>

S.22.01 – Impact of long term guarantees measures and transitionals

General comments:

This template relates to the annual disclosure of information for individual entities.

This template is relevant when at least one long term guarantee measure or transitional is used by the undertaking.

This template shall reflect the impact on the financial positions when no transitional is used and each LTG measures or transitional is set to zero. For that purpose, a step-by-step approach should be followed taking out each transitional and LTG measure one by one and without recalculating the impact of the remaining measures after each step.

The impacts need to be disclosed positive if they increase the amount of the item being disclosed and negative if they decrease the amount of the item (e.g. if amount of SCR increases or if amount of Own Funds increases then positive values should be disclosed).

S.25.05 – Solvency Capital Requirement – for undertakings using an internal model (partial or full)

General comments:

This Annex contains instructions in relation to the templates included in Annex I of this Regulation. The first column of the following table identifies the items to be reported by identifying the columns and lines as shown in the template in Annex I.

This Annex relates to opening and annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

This template shall be reported based on availability according to the internal model architecture and risk profile when possible with reasonable effort. The data to be reported shall be agreed between national supervisory authorities and insurance and reinsurance undertakings.

The purpose of this template is to collect data on an aggregate level and show diversification benefits between separate risk modules. All values shall be reported before any tax effects unless otherwise stated.

For undertakings using a partial internal model all rows for C0010 refer to the amount of the capital charge for each component regardless of the method of calculation (either standard formula or partial internal model), after the adjustments for loss-absorbing capacity of technical provision and/or deferred taxes when they are embedded in the component calculation.

For the components Loss absorbing capacity of technical provisions and/or deferred taxes when reported as a separate component it should be the amount of the loss-absorbing capacity (these amounts should be reported as negative values)

For components calculated using the standard formula this cell represents the gross nSCR. For components calculated using the partial internal model, this represents the value considering the future management actions which are embedded in the calculation, but not those which are modelled as a separate component.

These amounts shall fully consider the diversification effects referred to in Article 304 of Directive 2009/138/EC, where applicable.

Where applicable, these cells shall not include the allocation of the adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level.

For the undertakings, reporting at the level of the whole undertaking, under a partial internal model to which the adjustment due to the aggregation of the nSCR of RFF/MAP is applicable, where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) the nSCR at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- where the undertaking applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level: the nSCR shall be calculated as if no RFF and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- where the undertaking applies the Simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level, the nSCR and LAC shall be calculated considering a direct summation at sub-module level method;
- where the undertaking applies the Simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level, the nSCR and LAC shall be calculated considering a direct summation at module level method.

R0670/C0130	Amount/estimate of LAC DT justified by carry back, current year	Amount/estimate of loss-absorbing capacity of deferred taxes, calculated in accordance with Article 207 of Delegated Regulation (EU) 2015/35, justified by profits from past years. Amount of the losses allocated to the next year.
R0680/C0130	Amount/estimate of LAC DT justified by carry back, future years	Amount/estimate of loss-absorbing capacity of deferred taxes, calculated in accordance with Article 207 of Delegated Regulation (EU) 2015/35, justified by profits from past years. Amount of losses allocated to the years after next year.
R0690/C0130	Amount/estimate of Maximum LAC DT	Maximum amount of loss-absorbing capacity of deferred taxes that could be available, before the assessment whether the increase in net deferred tax assets can be used for the purposes of the adjustment, as provided for in Article 207(2) of Delegated Regulation (EU) 2015/35.

S.28.01 – Minimum Capital Requirement – Only life or only non-life insurance or reinsurance activity

General comments:

This section relates to the annual disclosure of information for individual entities.

In particular, S.28.01 is to be submitted by insurance and reinsurance undertakings other than insurance undertakings engaged in both life and non-life insurance activity. These undertakings shall submit S.28.02 instead.

This template shall be completed on the basis of Solvency II valuation, i.e. written premiums are defined as the premiums due to be received by the undertaking in the period (as defined in Article 1(11) of Delegated Regulation (EU) 2015/35). Amount of taxes or charges levied with premiums should be excluded from the written premiums.

All references to technical provisions address technical provisions after application of Long Term Guarantee measures and transitionals.

The calculation of MCR combines a linear formula with a floor of 25 % and a cap of 45 % of the SCR. The MCR is subject to an absolute floor depending on the nature of the undertaking (as defined in Article 129(1)(d) of Directive 2009/138/EC).

General comments:

This section relates to the annual disclosure of information for groups.

This template shall be reported from an accounting perspective, i.e.: Local GAAP or IFRS if accepted as local GAAP but using SII lines of business. Undertakings shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required, unless otherwise stated in these instructions, except for the classification between investment contracts and insurance contracts or different reporting requirements when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements.

This template covers only insurance and reinsurance business within the scope of the consolidated financial statements.

Insurance and reinsurance undertakings shall disclose written/earned premiums as defined in Article 1(11) and (12) of Delegated Regulation (EU) 2015/35 regardless whether a local GAAP or IFRS is used.

S.05.02 – Premiums, claims and expenses by country

General comments:

This section relates to the annual disclosure of information for groups. Participating insurance and reinsurance undertakings, insurance holding companies or mixed financial holding companies are not required to disclose template S.05.02.01 of Annex I where the home country represents 90 % or more of the total gross written premiums.

This template shall be disclosed from an accounting perspective, i.e.: local GAAP or IFRS if accepted as local GAAP. The template is based on a year-to-date basis. Undertakings shall use the recognition and valuation basis as for the published financial statements, no new recognition or re-valuation is required except for the classification between investment contracts and insurance contracts when this is applicable in the financial statements. This template shall include all insurance business regardless of the possible different classification between investment contracts and insurance contracts applicable in the financial statements.

This template covers only insurance and reinsurance business within the scope of the consolidated financial statements.

The following criteria for the classification by country shall be used:

- The information, provided by country, shall be completed for the five countries with the biggest amount of gross written premiums in addition to the home country or until reaching 90 % of the total gross written premiums:
- For the direct insurance business for the lines of business, as defined in Annex I to Delegated Regulation (EU) 2015/35, ‘Medical expense’, ‘Income protection’, ‘Workers’ compensation’, ‘Fire and other damage to property’ and ‘Credit and suretyship’ information shall be disclosed by country where the risk is situated as defined in Article 13(13) of Directive 2009/138/EC;
- For direct insurance business for all other lines of business, information shall be disclosed by country where the contract was entered into;
- For proportional and non-proportional reinsurance information shall be disclosed by country of localisation of the ceding undertaking.

For the purposes of this template ‘country where the contract was entered into’ means:

- (a) The country where the insurance undertaking is established (home country) when the contract was not sold through a branch or freedom to provide services;
- (b) The country where the branch is located (host country) when the contract was sold through a branch;
- (c) The country where the freedom to provide services was notified (host country) when the contract was sold through freedom to provide services.
- (d) If an intermediary is used or in any other situation, it is a), b) or c) depending on who sold the contract.

S.22.01 – Impact of long term guarantees measures and transitional

General comments:

This section relates to the annual disclosure of information for groups.

This template is relevant when at least one long term guarantee measure or transitional is used by any undertaking within the scope of group supervision.

This template shall reflect the impact on the financial positions when no transitional is used and each LTG measures or transitional is set to zero. For that purpose, a step-by-step approach should be followed taking out each transitional and LTG measure one by one and without recalculating the impact of the remaining measures after each step.

The impacts need to be disclosed positive if they increase the amount of the item being disclosed and negative if they decrease the amount of the item (e.g. if amount of SCR increases or if amount of Own Funds increases then positive values should be disclosed).

The amounts disclosed in this template shall be net of Intra Group Transactions.

S.25.05 – Solvency Capital Requirement – for groups using an internal model (partial or full)

General comments:

This section relates to the annual disclosure of information for groups.

This Annex contains instructions in relation to the templates included in Annex I of this Regulation. The first column of the following table identifies the items to be reported by identifying the columns and lines as shown in the template in Annex I.

This Annex relates to opening and annual submission of information for individual entities, ring fenced-funds, matching adjustment portfolios and remaining part.

This template shall be reported based on availability according to the internal model architecture and risk profile when possible with reasonable effort. The data to be reported shall be agreed between national supervisory authorities and groups.

The purpose of this template is to collect data on an aggregate level and show diversification benefits between separate risk modules. All values shall be reported before any tax effects unless otherwise stated.

For groups using a partial internal model all rows for C0010 refer to the amount of the capital charge for each component regardless of the method of calculation (either standard formula or partial internal model), after the adjustments for loss-absorbing capacity of technical provision and/or deferred taxes when they are embedded in the component calculation.

For the components Loss absorbing capacity of technical provisions and/or deferred taxes when reported as a separate component it should be the amount of the loss-absorbing capacity (these amounts should be reported as negative values)

For components calculated using the standard formula this cell represents the gross nSCR. For components calculated using the partial internal model, this represents the value considering the future management actions which are embedded in the calculation, but not those which are modelled as a separate component.

These amounts shall fully consider the diversification effects referred to in Article 304 of Directive 2009/138/EC, where applicable.

Where applicable, these cells shall not include the allocation of the adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level.

For the groups, reporting at the level of the whole group, under a partial internal model to which the adjustment due to the aggregation of the nSCR of RFF/MAP is applicable, where the entity has MAP or RFF (except those under the scope of Article 304 of Directive 2009/138/EC) the nSCR at risk module level and the loss-absorbing capacity (LAC) of technical provisions and deferred taxes to be reported shall be calculated as follows:

- where the group applies the full adjustment due to the aggregation of the nSCR of the RFF/MAP at entity level: the nSCR shall be calculated as if no RFF and the LAC shall be calculated as the sum of the LAC across all RFF/MAP and remaining part;
- where the group applies the simplification at risk sub-module level to aggregate the nSCR of the RFF/MAP at entity level, the nSCR and LAC shall be calculated considering a direct summation at sub-module level method;
- where the group applies the Simplification at risk module level to aggregate the nSCR of the RFF/MAP at entity level, the nSCR and LAC shall be calculated considering a direct summation at module level method.

For group reporting the following specific requirements shall be met:

- (a) the information until R0470 (S.25.05.22.02) is applicable when method 1 as defined in Article 230 of Solvency II Directive is used, either exclusively or in combination with method 2 as defined in Article 233 of Directive 2009/138/EC;
- (b) when combination method is being used, the information until R0470 (S.25.05.22.02) shall be submitted only for the part of the group calculated with method 1 as defined in Article 230 of Directive 2009/138/EC.
